

Name _____

Bird Identification

Birds can be great fun to look at and identify out in the wild. Your task is to go outside and locate a bird. Fill in the characteristics listed below and remember to sketch the specimen you find.

SKETCH (label the bird parts that appear to be more distinctive)

CHARACTERISTICS

Appearance:

Behavior:

Location:

After writing what your bird looks like, you are ready to look up in a bird field guide or other research book and identify your bird.

bird's common name

bird's scientific name

You should also reference the book in which you found your bird,
This is so you know where to find it in the future.

NAME & AUTHOR OF BOOK:
