

Answer Key – Poriferans

Line to the correct answer:

Class Calcarea — Glass sponges – silica spicules
Class Demospongiae — Calcareous sponges – calcite spicules
Class Hexactinellida — Siliceous spicules

Outcomes:

English – reading, writing

Biology – learn about poriferans

Art – drawing

Suggested Activities:

Visit a beach and find different sponge species. Have students sketch the specimens and try to identify them using books, internet etc.
