

## Answer Key – Addition 3

Add the following:

$$239871 + 187098 + 189421 + 109872 + 100562 + 100010 = \mathbf{926834}$$

Write the above number here:

**nine-hundred and twenty six thousand eight hundred and thirty four.**

Add the Roman Numerals:

$M + XL = 1000 + 40 = \mathbf{1040}$
$CL + XVLL = 150 + 17 = \mathbf{167}$
$CD + CCLVI = 400 + 256 = \mathbf{656}$
$CM + DCLIII = 900 + 653 = \mathbf{1553}$

Write the numbers as Roman Numerals:

$589 = \mathbf{DLXXXIX}$
$390 = \mathbf{CCCXC}$
$145 = \mathbf{CVL}$
$723 = \mathbf{DCCXXIII}$

**What do these symbols mean? Fill in the blanks:**

$<$  means *less than*. This symbol is used to show that the number value to the left is smaller than the number value to the right.

e.g.  $78 < 87$ ,  $37.05 < 37\frac{1}{2}$ ,  $23 < 23.9$ ,  $1\frac{3}{4} < 2$

$>$  means *greater than*. This symbol is used to show that the number value to the left is greater than the number value to the right.

e.g.  $56 > 45$ ,  $67.5 > 67.05$ ,  $34 > 33.9$ ,  $4 > 3\frac{3}{4}$

**Outcomes:**

Mathematics – addition, roman numerals, math's symbols, problem solving.
