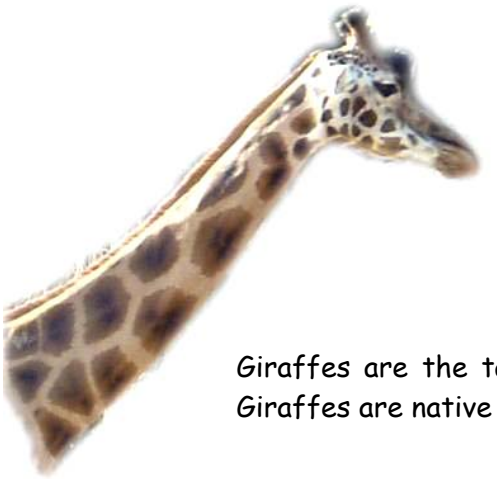
Name_____



GIRAFFE

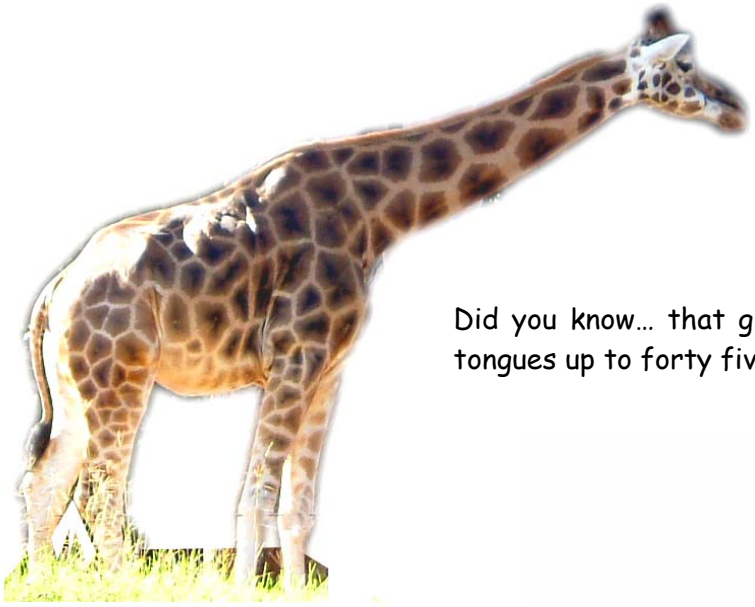
Giraffes are the tallest animal reaching heights of up to 5.5 metres high. Giraffes are native to Africa and inhabit open woodlands and savannahs.

Find out 4 things a giraffe eats

1) _____ *2)* _____ *3)* _____ *4)* _____

Giraffes have very good hearing and sight, they can clearly see for many kilometres across open plains. Adult giraffes have few enemies, because they have very large hoofs which act as their weapon. With just one powerful kick the giraffe can kill a lion.

Giraffe's scientific name is: _____



The giraffe's coat provides it with a very good camouflage as it moves about the trees in search for food using its long neck to reach the juicy leaves.

Did you know… that giraffes have very mobile lips and tongues up to forty five centimetres long?
