

DOLCH WORDS FLASH CARDS

This word list is also recognized as Dolch words, used on a regular basis by children between ages six to eight. It is an ideal list to use in conjunction with the Wordbank worksheets. You will find many of these words in simple story books. By learning these key words, children will improve reading, spelling and word recognition skills.

If you want a simple tool to help children learn these words, print the Dolch words flash cards; cut each word as a separate flash card and start the memorization process. Simple, effective but extremely beneficial to further English reading, writing and spelling development.
